

Google,
youtube,
blogs.

In order to obtain the necessary
information to carry out my work and
activities, I like to have places where I
can investigate comfortably and
calmly, such as the following.

Visual studio code
Visual studio,
youtube.

I really like programming and I like
to be constantly advancing. For this
I use these tools.

PERSONAL LEARNING ENVIRONMENT

To study virtually,
I prefer to have
visual content.

I also like to keep my mind in
shape to always be prepared for
each activity that comes my way

This is why I like and enjoy
YouTube a lot, since it offers
me more interactive and
easy-to-understand content.

for this I like to do mathematical
exercises and read a book from
time to time.
